Thesis: “Homo moralis and the prisoners’ dilemma”

Vienna University of Economics and Business, Austria

October 2018 - January 2021

B. Economics

Major: Environment and natural resources

University of Queensland, Australia

March 2014 - July 2017

Working Papers

Governance on multiple public goods (available on request)

with Michael Finus and Francesco Furini

How does the introduction of a second public good change the incentives for cooperation? We analyse this question in the context of a non-cooperative coalition formation game with n symmetric players. The gains from cooperation remain small for independent goods and substitutes. For complements, the grand coalition can be stable and effective.

Work in Progress

A mitigation and solar geoengineering agreement

w M. Finus and F. Furini

An experiment on public goods as substitutes and complements

w P. Hoffman

The economics of using your voice

w J. Möller and K. Fellhofer

Teaching

Short-listed for Teaching Award *2024*

“Building on strengths and learning from mistakes”

University of Graz

Environmental Economics — Graduate SS24

Environmental Economics (Proseminar) — Undergrad WS23 & WS24

International Economics I — Undergrad WS23, SS24 & SS25

International Economics II— Undergrad SS25

Vienna University of Business and Economics

Foundations of Macroeconomics — Graduate WS19

Conferences

24th Journées Louis-André Gérard-Varet *July 2025*

30th Annual Conference of EAERE *June 2025*

4th AERNA Workshop on Game Theory and the Environment *September 2023*

7th Lindau Meeting on Economic Sciences *August 2022*
